HEADED FOR 'FRISCO.

The Atchison Bound for the Bay.

A Tramp's Diabolical Crime—Lynchers in Pursuit of Him.

Two Nevada Murderers to Die on the Scaffold Together.

Thousands of Acres of Wheat Inundated by the San Joaquin—Further Floods Feared—Other Coast News.

By Telegraph to The Times.

SAN FRANCISCO, May 27.—[By the Associated Press.] In connection with the recent developements and talk of the possibility of the Atchison extending its lines to San Francisco, the departure of I. R. Wilbur for the East today is significant. Mr. Wilbur, with other San Francisco capitalists, controls valuable rights of way leading to this city from The Needles. A feasible route has been surveyed, and some grading has been done in the Tejon Pass.

Another matter of some significance is the fact that in all the retrenching and cutting of forces and salaries incidental to the recent reorganization of the Atchison, the agency in this city has not only been passed, but plans are now being made for its removal to larger quarters, with better facilities for increasing business.

RIVERS OVERFLOWING.

Thousands of Acres of Grain Under Water.

SAN FRANCISCO, May 27.—[By the Associated Press.] The Chronicle's Fresno special says: The San Joaquin and King's rivers are higher than ever before. About Elkhorn many thousands of acres are inundated. A large area near Reedly is also flooded. Several hundred acres of the finest wheat land of the Laguna de Tache grant is under water, and what promised to be a splendid yield to the acre will not pay for the harvesting.

Below Hamptonville the San Joaquin has broken its banks and hundreds of acres are covered with water. Bridges on both rivers have been washed away. Both streams are rising rapidly and a few warm days will cause a disastrous flood.

At Firebaugh banks are in danger [illegible] break the entire coun-

Goshen, May 27.—Owing to the rise in the various streams over one thousand acres of wheat within three miles of Goshen are overflowed and the crop will be a total loss. Travel on wagon roads is suspended. The water is up to the tracks of the Visalia Railroad.

MUST HANG TOGETHER.

Two Brutal Murderers to Be Executed in Nevada.

CARSON (Nev.,) May 26.—[By the Associated Press.] The fate of the Potts family, who killed one Fawsett on the 1st of January, 1888, has been decided at last. The Board of Pardons met today and decided that the sentence could not be recalled, and the pair must hang on the 20th of June, 1890.

The body of Fawsett was literally cut to pieces, and otherwise horribly mutilated. The whole thing was done at the suggestion of Mrs. Potts, with Potts as a tool.

HORRIBLE AFFAIR.

A Lady Bound and Outraged by a Tramp.

NEWMAN, May 27.—[By the Associated Press.] A tramp entered the house of a Mrs. Hall about nine miles from here, yesterday, bound the lady with cords and outraged her. Her husband returned later and found her in a greatly exhausted condition. He informed neighbors of the affair and the country is now being searched for the tramp. If he is caught it is believed lynching will follow.

WHERE IS YOUNG BRAGG?

Nephew of the Confederate General Missing.

SACRAMENTO, May 27.—[By the Associated Press.] William B. Bragg, nephew of the General of Confederate fame, came to this coast from Mobile, Ala., some time in April. He put up at the Western Hotel here, and seemed to be in search of employment. On May 7th the young man disappeared and has not been seen since. He left three or four valises at the hotel. His acquaintances are anxious about him.

Chinese Burglar Caught.

TULARE, May 27.—Officer Walker of Delano got off the train here this morning to turn over a Chinaman arrested on the train to local officers. The prisoner was charged with burglary at the residence of T. T. Hamlin of Tipton last night. A silver watch and $137 were stolen from the clothing of James Hamlin and John Gilmer while asleep. The Chinaman threw the watch off the train through the window and attempted to give something to another Chinaman at the Tulare depot, but was detected, and the object proved to be a roll of money amounting to $75. He is now in jail.

Escaped His Father's Fate.

COLUSA, May 27.—Joe Casey, son of the Casey who was hanged by vigilantes in San Francisco a number of years ago, was convicted of murder in the first degree, with the penalty of life imprisonment, today, for killing Dan Matheson at Williams last January.

More Steamers on Puget Sound.

OLYMPIA (Wash.,) May 27.—The Union Pacific has placed seven steamers on the Sound between Victoria and Olympia.

FIRES AT 'FRISCO.

A Blaze on Market Street—Much Damage by Water.

SAN FRANCISCO, May 27.—[By the Associated Press.] Fire broke out at 8:15 this evening in the Golden Rule Bazaar, 134 Market street, in the packing department in the rear of the building. Two lines of hose which were led through the building to the fire burst in the store, causing great damage. The loss from fire and water is $15,000.

Peixotto & Silverman, dry goods, next door, were damaged $5000 by smoke and water.

At 8:30 a lamp exploded at 407 Commercial street, setting fire to the building. The roof and two upper stories, occupied by three Chinese boot and shoe manufacturers, were badly damaged. The loss is about five thousand dollars. The building is owned by E. T. Anthony and Mason Bros.

Got Off With Manslaughter.

SAN JOSE, May 26.—William A. Paine, charged with killing Ed Mayfield at Gilroy, in February last, while attempting to shoot a hotel clerk, was convicted of manslaughter today, and will be sentenced on Thursday. This was his third trial.

Smothered in a Mudhole.

PETALUMA, May 27.—Edmond Sharon, aged 36 years, a resident of Blucher Valley, this county, yesterday afternoon had a fit and fell into a mudhole, face downward, and was smothered.

AFFAIRS ABROAD.

IRISH MEETINGS BROKEN UP BY POLICE.

The Shah's Wife Recovers Her Sight—A Village Destroyed by an Earthquake — Many Persons Drowned.

By Telegraph to The Times.

DUBLIN, May 27.—[By Cable and Associated Press.] The demonstration at Cashel today, which was prohibited by the government, was a game of hide and seek. Dillon managed to address a fugitive meeting outside Boherlahin, and then drove to the village to address another, which the police dispersed with batons. Dillon was struck. A military detachment arriving, several charges were made. One policeman was injured.

DESTROYED BY AN EARTHQUAKE.

CONSTANTINOPE, May 27.—The village of Repahae, Armenia, has been destroyed by an earthquake. Mineral springs spouted from crevices made in the earth, and adjacent fields were flooded. The earthquake was preceded [illegible] which caused the in-

MANY PEOPLE DROWNED.

POTSDAM, May 27.—By the accidental upsetting of a boat six army officers and a number of ladies were drowned. Seven persons were drowned in a similar accident at Dantzig.

Huntington Chosen President.

NEW YORK, May 27.—The United States and Brazil Mail Steamship Company, at the annual election, chose the following directors: C. P. Huntington, H. K. Thurber, G. G. Williams, C. R. Flint, W. M. Ivins, H. G. Ripley, C. M. Pratt, E. B. Bartlett, W. C. Hurlbut. The annual report shows a net profit of 8½ per cent. on the general capital of the company.

A Terrible Voyage.

QUEBEC, May 27.—The steamer Circassia from Liverpool reports an exceedingly rough passage. On Tuesday four cabin passengers were standing at the head of the stairs leading down to the saloon, when a tremendous wave struck the ship, knocking them down. Mr. Valpy died in a short time and the three others were terribly injured, but willl recover.

More Indian Lands Secured.

GUTHRIE (I. T.,) May 27.—The Iowa Indians today formally accepted the offer of the Government Cherokee Commission, and the signing of the contract was completed tonight. This means the addition of 221,618 acres to the public domain.

THE BENNETT LAW.

Religion and Politics in the Badger State.

A Catholic Bishop's Denunciation of the Statute.

He Says His Church Will Take a Hand in the Campaign.

Resolutions Adopted Urging All Catholics to Vote Only for Candidates Who Favor Repeal of the Law.

By Telegraph to The Times.

MILWAUKEE, May 27.—[By the Associated Press.] In the convention of German Catholic societies this morning several speeches were made. H. J. Spannhorst of St. Louis said the Bennett law presented a political question. The Catholics could not ignore it, because it directly affected the welfare of their institutions.

Bishop Flasch, in an address, referred to the Bennett law. He upheld the right of the church to go into politics when its interests were attacked.

He was followed by Bishop Katzer of Green Bay, who attacked the Bennett law in the bitterest manner. He said the law practically denied the right of a child to obey its parents by putting its claims before those of the parents. The friends of the law, he said, tell us the child has rights which the State must see accorded it. But the parents have more interest in the child than the State. The Governor and his "little German box" will be well taken care of by their parents if the State will let them alone. As the Bishop proceeded he warmed to the subject, and fairly brought his hearers to their feet by the intensity of his manner. He became angry, pathetic, sarcastic by turns.

"The matter of teaching English, they tell us, is what we are fighting," he exclaimed, "but this not so. English is now taught in our schools, but if the State has the right to tell us we must teach English, it will soon be telling us what we shall eat and what shall be on the table for family dinner. They are all of a class—these laws—whether in Wisconsin, Illinois or Massachusets. They attempt to interfere with personal and parental rights, and, carried out to their logical conclusion, would be very dangerous to the church and society. This Bennett law was conceived in the minds of free-thinkers and those opposed to the Catholics Church and her schools." He was told recently he said, by a person that the Bennett law was first suggested by the Masons. The man said: "I could prove it to you, if I did not put so high a value on my head, that the Bennett law was first agitated in the Grand Lodge of Masons in the State of Wisconsin."

The applause which followed this statement was deafening and the Bishop had to stand fully half a minute before he could continue. In closing he urged his hearers to oppose measures like the Bennett law to the best of their ability and stand firmly by the church.

At the afternoon session the following resolutions were unanimously adopted:

In view of the attacks upon the most sacred rights of parents, which recently have been begun by nativists and adherents of paternalism, we are compelled to present to the people of this State the following declaration:

First—By divine and natural law parents are entitled and in duty bound to provide for the education of their children. Therefore we claim for parents the right to select such school for the education of their children which, they are convinced, will best promote the welfare of their children.

Second—In case parents neglect this duty, the State is justified in compelling them, by appropriate legislation, to discharge their duty. The State may also, when parents are unable to provide for the education of their children, assume this duty. From this results:

(*a*) Justification of compulsory school attendance under the above mentioned conditions.

(*b*) The necessity of public schools.

(*c*) The right of general taxation for their support.

Third—We declare that we make no claim upon the public schools for the support of parochial and other private schools, but, as citizens and taxpayers, we insist on our rights even at the risk of being decried as enemies of the public schools to protest against any misuse and waste of this fund.

Fourth—As we make no claim on the support of the State for our parochial and private schools, we deny the State's right to exercise any control over our schools. We only then grant it the right of interference with the management of private schools, if these collide with public order or the law of morals.

Fifth—Because the so-called Bennett law violates the above-mentioned principles and unnecessarily and unjustly curtails our religious liberty, we hereby declare ourselves for the unconditional repeal of the law. Whatever good there is contained in this law has been long ago afforded by other laws, and therefore we cannot recognize from it any other intention but this: To compel citizens who provide for the education of their children to adopt the methods of those who hate their religion and nationality.

Sixth—We, therefore, also declare that without regard to former party connections, we will only vote for such candidates who pledge themselves to work for the repeal of the law.

Protection Against Contagion.

WASHINGTON, May 27.—Dr. Ruggles, member of the California State Board of Health, has called upon the Surgeon-General asking to have guardians established along the Arizona border to prevent the coming into the country from Mexico of persons suffering from contagious diseases. He said the guardians established by the State of California have not been effectual. Objectionable persons were getting into the country by way of Arizona, from which Territory it was a comparatively easy task to get into California.

Rubber Advancing.

NEW YORK, May 27.—In response to a circular, representatives of the rubber industry of the United States met here today. In regard to the recent advance in rubber, it was resolved to advance the price of belting, packing, hose and mechanical rubber goods generally from 10 to 25 per cent.

Red Rice's.

Moved to 143 and 145 S. Main St.,
(Between First and Second Sts.)

LOS ANGELES, MAY 25TH—LUCKY Red Rice's and lucky for those who deal there, for we have just made some superb purchases. First, a hotel was compelled to go to the wall; we bought the entire, almost new, furniture from the mortgagee. Then a lady was obliged to follow her husband to the north quick; so we bought the entire house of beautiful furniture and carpets. Again, we bought the contents of a retail furniture store, containing much new furniture. Besides the above, the contents of five dwelling-houses from parties retiring from housekeeping, and several small lots, added to our immense stock this week; rather crowded are our splendid salesrooms, and still there's more to follow. But come on, friends; we will make room for you, and welcome you. We must sell goods, and will agree to undersell any one else in the trade. We will show you the greatest stock you ever saw, and agree not to urge you to buy. RED RICE'S.

HARDIE'S REMAINS

Brought Back to Los Angeles by Dr. Haynes.

A SAD RETURN TO HIS FAMILY.

Full Circumstances of the Assassination — No Doubt that Indians Did the Foul Work.

At 10 o'clock last night the remains of Robert Hardie, Esq., arrived in the city from Arizona. Several friends were at the depot, and the remains were taken charge of by Messrs. Orr & Scotch.

Dr. Francis Haynes, who was with his brother-in-law at the time he was killed, when spoken to by a reporter, said that he was tired, and referred the reporter to Dr. Walter Lindley for information in regard to the death of his brother-in-law. He left for his home on South Main street, and Dr. Lindley very kindly gave all the information which he had gathered in regard to the affair.

From what he said it was learned that the main features of the killing were as reported by the Associated Press yesterday morning.

Mr. Hardie and Dr. Haynes were sixty miles from Tombstone, near the Sonora line. They were stopping at Mike Graves's place. Nobody felt uneasy about the Indians, it being the general talk that none of them were off the reservation. The people were working on their places, without any idea that there was danger from the Indians.

Mr. Hardie and Dr. Haynes started out for a ride. They took no arms except a rifle, which was tied on Hardie's saddle. They rode up through Rucker's Cañon. While riding quietly along, there was a volley of shots from the side of the cañon. It was a surprise, and when Dr. Haynes heard it he was riding behind Mr. Hardie. His first thought was that some one was shooting at game. He saw his brother-in-law reel in the saddle and drop to the ground.

Quick as a flash he dismounted and rushed up to him. He saw that there was a great hole in his breast, and that he was dead. Not a groan was made by Hardie, and he died as he fell from the horse.

The Doctor then realized what had happened and ran for his horse. He jumped upon the horse, and as he jumped a bullet killed the animal and it sank beneath him. The firing was from the left, and he ran zigzag. Being somewhat of an invalid he got out of breath as he ran, the altitude being some 6000 feet above the level of the sea. He ran until he dropped, and looking back saw an Indian fifty yards behind him. The sight gave him new strength. The Indian was painted in appropriate war colors. The Doctor ran until out of breath, and then dropped in a thicket. He looked down the trail and saw Mr. Hardie's pony. He edged toward it, and mounted it, making as small a target of himself as he could. He rode then to the ranch, where he told the news, and three men went with him to the cañon, where they found the dead body. They brought it to the ranch, and then to the station. They found it minus a gold watch and purse, and a belt of cartridges. It was not mutilated. The [illegible] was the shot which had [illegible] took the remains and drove all night to reach the railroad. The body was embalmed at Tombstone, and they brought it as quickly as possible back to the family.

Dr. Haynes thinks that the men who committed the murder are the Indians mentioned by Gen. Miles as having been concerned in depredations for some time past.

A BAR MEETING

To Show Respect to the Murdered Attorney.

A meeting was held yesterday in Judge Clark's courtroom, by the members of the Los Angeles bar, to take action with reference to the death of Robert Hardie, Esq., who was killed by Indians in Arizona Saturday last.

The meeting was largely attended and was organized by the selection of A. J. King, Esq., chairman, and W. I. Foley, Esq., secretary.

It was stated that the family of the deceased had signified a wish that the funeral should be as private as possible.

A motion by A. T. Patton, Esq., for the appointment of a committee on resolutions was adopted, and Messrs. A. T. Patton, A. W. Hutton, F. H. Powers, R. B. Carpenter, Moye Wicks and E. C. Bower were appointed.

On motion, a committee consisting of Judges Clark and Cheney, W. F. Fitzgerald and W. J. Foley were appointed a committee on the part of the bar to attend the funeral.

It was moved by Frank Howard, Esq., that the courts be asked to adjourn this morning out of respect to the deceased, and the motion prevailed.

The meeting adjourned to meet this morning at Judge Clark's courtooom at 9:30 to hear the report of the committee on resolutions, who were requested to furnish the papers with the resolutions, and send a copy to the family.

"Kid" Is Dead.

In the interview with Gen. Miles, telegraphed from San Francisco, he is made to say that he believes Robert Hardie of this city was murdered by "Kid" and his band of Apache Indians, who have been operating in Mexico and Arizona. Gen. Miles must be mistaken, as "Kid" is dead and a majority of his band are serving a term for murder. Detective Will Smith of the Southern Pacific helped to arrest them some months ago.

Santa Monica.

SANTA MONICA, May 27.—[Correspondence of THE TIMES.] Mrs. Dr. J. S. Owens of Los Angeles has rented a beautiful cottege on the bluff, where she will spend the summer. Miss Veazie will be her guest.

A very pleasant surprise party was given Saturday evening at the residence of Mr. and Mrs. Elliott, in honor of the birthday anniversary of their daughter, Miss Kate Elliott. A most enjoyable evening was spent. Among those present were Misses Nellie Elliott, Annie Suits, Scott, Pearl Grimes, Walters, Maria Kennedy, Jones, Amy Saunders, Grace Elliott, Florence Saunders and Florence Elliott.

E. D. Suits has just received a drove of cattle from Ventura county, consisting of twenty-four head.

Mrs. Mullens and her daughters will spend the summer months here, in a cottage on the beach.

Gus Steinnike of the firm of Steinnike & Bruning spent yesterday with his family here.

Rumor has it that the Southern Pacific has already given the order for the material necessary for the building of a wharf here.

Mrs. J. D. Sholtz will spend the summer here in a cottage on Ocean avenue.

Mmes. Nelson and Waller gave a reception to Mr. and Mrs. P. W. Bresee at the residence of Mrs. J. A. Austin Sunday. The reception was a very pleasant one, the newly-married couple receiving hearty congratulations and loving wishes from their many friends at Santa Monica. Among those present were Col. E. E. Hewitt and wife, parents of the bride, Mr. and Mrs. W. W. Waller, Mr. and Mrs. R. H. Hewitt, Mr. and Mrs. J. P. Bassett, Misses Cynthia and Susie Hewitt, Mrs. J. A. Nelson, Arthur Nelson, Misses Maud Nelson, Emma Truesdell.

Capt. R. H. Stacey of Burbank, one of the original owners of the ostrich farm before its removal to this place by Mr. Beauchamp, has purchased the entire outfit of the ostrich farm, and proposes to make many improvements.

There are quite a number of young men here who would make superb athletes if only they would give a little time and attention to the matter. If they would start an athletic club it would become an attraction.

CHAMBERS, THE EX-STABLE MAN, ON HIS MUSCLE,

Chris Wirtz Falling Under His Displeasure — Capt. Peabody Wasn't Bluffed Very Seriously, However.

Joseph Chambers, the cable company's stable-man, about whom all kinds of rumors have been in circulation during the past few weeks, got on the warpath yesterday morning and attempted to run several bluffs. The case was worked up by the Lawson detective agency, and Chambers reported that he intended to thrash Capt. Peabody of the agency as soon as they met. They finally met in front of the Lanfranco building, on North Main street, and had a few words, but Peabody intimated that he was ready for the bad man and Mr. Chambers walked off. On Third street Chambers met Chris Wirtz, who has been in the employ of the cable company. Wirtz and Chambers have had trouble before and have been bitter enemies for some months past. When they met yesterday morning Chambers accused Wirtz of having putting up the job on him and told him that, had it not been for his long tongue, there would not have been any scandal in the newspapers. Chambers ordered Wirtz to take his coat off, but that gentleman refused and stood with his hands in his pockets looking at Chambers. "Well, take your hands out of your pockets," exclaimed Chambers, "or I'll whip you anyhow." Wirtz withdrew his hands when Chambers struck him in the face knocking him down. Wirtz was knocked down several times, when he got up and ran toward the police station. Chambers then visited the District Attorney's office and offered to give himself up, but his arrest nothing was [illegible] late hour last night he had not been arrested.

Wirtz claims that he was not prepared for Chambers's assault, as he was standing with his side to him, and did not know that an attack was contemplated until the first blow was struck.

THE SUFFRAGISTS

Still Maintaining the Rights of Women at the Polls.

The Los Angeles Suffrage Association met yesteaday at the Unity Church.

A discussion took place on the subject of municipal suffrage for women in Kansas. Mrs. Longley, the president, read retters and several extracts from Topeka and Leavenworth papers, refuting the statement made recently in the Express by a Kansas man, that "Woman suffrage in Kansas is a dismal failure."

Some leading events in the arena of politics were earnestly discussed, and it seemed to be the general voice of those present that if men do not improve the political system soon they will be compelled to call in the aid of women to help them.

Articles were read showing that the woman suffrage question continues to come up, and, like Banquo's ghost, it will not down.

A GRAND BLOWOUT.

Anniversary of the Oro Fino Club.

The Oro Fino Club of this city will give a Republican jubilee Saturday evening, May 31st, at its new headquarters in the old Masonic Temple, North Spring street. The jubilee will be in honor of the anniversary of the organization. There will be a grand and elaborate pyrotechnic display and an open-air concert by the combined brass bands of the city; also, vocal music by the Glee Club. Speeches will be made by Gen. Mansfield, Col. C. C. Allen, Gen. H. G. Rollins, H. Z. Osborne, J. A. Kelly, Maj. Bonebrake, Gen. E. P. Johnson, S. W. Baldwin, W. I. Foley and others.

A Good Thing in Simi.

At a meeting of the directors of the Simi Land and Water Company, held yesterday, a dividend of two dollars a share was declared, payable at once, at the office of the company, 125 West Second street. This company bought the Simi ranch of 96,000 acres, cheap for cash, and being entirely free from debt, is prepared to sell its lands very cheap, and offers stock ranges at from two to five dollars per acre; grazing lands, including some farming lands, at from five to twenty dollars per acre, and good valley farming lands from thirty to fifty dollars per acre; all on easy terms.

A Free Debate.

Representatives of the Young Men's Literary Society and of the Irving Literary Society of the University of Southern California will have a public debate at Masonic Hall, 125½ South Spring street, this evening. Question: "Resolved, that the annexation of Canada to the United States would be desirable." Affirmative—F. W. Allender, D. J. Shultis, R. D. Morris, for the Young Men's Literary Society. Negative—G. A. Miller, L. G. Hayes, H. C. Lillie, for the Irving Literary Society.

Music is to be furnished by members of the Young Men's Literary Society. No charge will be made for admission.

THAT LICENSE.

Should the Illinois Association Pay It?

THEIR "NON-PROFESSIONALS."

What a Deputy Tax Collector Says — President Peebles Trying to Crawfish Out of an Interview.

In a published communication yesterday morning, the Illinois Hall Dramatic Association, through its prompter, Ralph Hoyt, denies that "theatrical entertainments" are given in that hall, and states that the dramatic sketch, *Among the Breakers*, was the only representation of a theatric nature, and that it was given for a charitable purpose—for the benefit of a lady elocutionist. The facts in the case are: The hall was rented to her for this dramatic representation by the association, and the only charity about it was that the hall was rented to her at reduced rates, in consideration of her voluntary services at previous entertainments given by the association. In addition to the list of professional people published in yesterday's TIMES, as appearing at the Illinois Hall, the advertisements show that the peripatetic Henry George, with his borrowed ideas from Buckle and John Stuart Mill, lectured at that hall, charging 50 cents admission; Miss Jessie Couthoui, a professional and self-styled elocutionist, gave two entertainments. She is no doubt an amateur, so far as reading is concerned, but she is a professional in that sense of the term, and travels through the country as such. There was no charity in these entertainments. The "Riggins Family" are professionals, and the sketches of *Cups and Saucers* and *A Kiss in the Dark* were not announced as given for any charitable purpose.

AN OPINION.

"It is true," said a theatrical-goer yesterday, "that the smallness of the stage and the lack of scenery prevents the booking of first-class attractions at that hall, but, frequently, the audience do not get all of the scenery the pieces call for even at our principal theaters; yet the audience pays the admission price just as if the scenery was there." The law has nothing to do with the size of the stage or the amount of scenery. It provides that all exhibitions and entertainments, other than charitable, where money is charged for admission, shall pay a stated license. Now, we all know that these professionals who are traveling around the country are not doing it for charity; neither does the Illinois Hall close corporation give its portion of the profits from these entertainments to charity. You will notice that recently the Illinois Hall advertisements have read, 'for the benefit of the free reading-room and library!' This is evidently intended as a 'perpetual charity,' to cover all future entertainments. If that should hold good in law, Wyatt and McLain & Lehman can refuse to pay their license of $300 a year, and say: 'We have made a free reading-room out of the auditorium of our theaters, and we are giving these entertainments [illegible] so that we can purchase the latest seaside novels for our patrons.'"

THE LICENSE COLLECTOR.

A TIMES reporter called at the License Collector's office and was informed by one of the deputies: "The license law was changed about three months ago. Before that the license was nominal and was paid; we have several times demanded the increased license, but the hall people would delay the matter under the pretext of consulting the District Attorney, and finally, when we learned that they simply wanted a delay, we made a demand last Friday, and the District Attorney will bring the matter to a test. No, I have never witnessed any of the performances up there. I have done nothing to warrant such self-punishment."

The clause in the license ordinance which governs this case is as follows:

Every proprietor or lessee of any theater, concert hall, or of any place of amusement, entertainment or exhibition, shall pay licenses in advance, as follows: If issued for one year, $300 per annum; if issued for three months, $100 per quarter; if for one month, $50 per month; if for one day or for any time less than one month, $20 per day. Provided, that no license shall be required of exhibitions or entertainments given for the benefit of churches, schools, or other charitable entertainments by any amateur dramatic association, or musical or literary society.

PRESIDENT PEEBLES'S DENIAL.

President Peebles of the First National Club publishes a card denying certain statements he made to a TIMES reporter last Sunday. Dr. Peebles certainly did say: "Hoyt wanted our club to meet in Illinois Hall, and we decided to meet at Temple Hall because we got it cheaper, and then they organized a club up there. We purchased pamphlets with the surplus from our hall collections but never could get them to purchase pamphlets." The only mistake the reporter made was that he did not report all that Dr. Peebles did say.

RELEASED AND REARRESTED.

The Troubles of Frank Murphy, Petit Larcenist.

Frank Murphy, who was convicted of petit larceny before Justice Owens and sentenced to 225 days' imprisonment, was released yesterday on a writ of habeas corpus, heard before Judge Wade, after serving 175 days of the term. He was rearrested yesterday afternoon by Detectives Auble and Bowler on the old charge. The habeas corpus seems to have been granted on the question of the right of Justice Owens to sit in such cases. It will be recollected that Murphy, with two others, was arrested charged with stealing an assortment of knives, razors, etc., from a store on South Main street, and the plunder was unearthed by Detectives Auble and Bowler.

THE CHAMBER.

AGRICULTURAL EXPERIMENT STATION.

It Is to Be Located at Pomona—The Supervisors Asked to Contribute Funds for It.

Several hundred visitors looked in at the Chamber of Commerce yesterday, and spent some hours looking through the exhibits. A majority are visitors from outside towns and cities of Southern California, and the rest came from the East.

AGRICULTURAL EXPERIMENT STATION.

J. B. Lankershim, chairman of the committee on lands and irrigation, has sent the following letter to the Board of Supervisors of this county:

At a meeting of the board of directors of the Chamber of Commerce, held on the 22d inst., the matter of establishing an agricultural experiment station in this region was considered and referred to the committee on lands and irrigation, with instructions to request your coöperation.

The station will be for the benefit of the whole of the Los Angeles Valley, and that portion of Southern California from the sea to Redlands, taking in Orange, San Bernardino and Los Angeles counties. It is under the control of the State Agricultural College, and a letter received from that institution states that the location of the station near Pomona would represent as nearly as possible the average conditions of the valley of South California, as the neighborhood of Pomona, from both its geographical and climatic location, is the nearest approach to the fair representation of the whole.

The citizens of Pomona and vicinity have donated forty acres of land and five inches of water, equivalent to $10,000. There still remains to be raised the sum of $3000 for buildings. A portion of this sum will also be donated by the citizens of Pomona. As this is a matter in which all the people of the three counties mentioned are interested, we have no hesitancy in requesting and urging that your honorable body appropriate such sum as you may deem consistent toward the furtherance of this worthy object. There is nothing that would so advance agricultural interests or enable our farmers to labor so intelligently as the establishment of this experiment station, and we sincerely trust that you will give a kindly consideration to our request.

DONATIONS.

The following donations reached the hall yesterday:

Mr. Stein of Pomona, two boxes of lemons, two boxes of oranges and dried fruits; A. H. Murphy of Beaumont, Sharpless strawberries; Mrs. M. Gilchrist of Los Angeles, two linen towels to ladies of the annex; W. J. A. Smith of Boyle Heights, French prunes; Prof. C. E. Anthony of Los Angeles placed upon exhibition a meteorite found near Tehachapi, five feet under ground, the analysis of which shows, copper, manganese, nickel, iron, etc.; two more barrels of mineral water were received from the Coronado Company yesterday. Flowers: Mmes. Jennie Baldwin, W. C. Waldron, J. A. Van Doren, E. Elliot, A. C. Bixby, Mollie E. Green, D. E. McMillen, Miss L. Archibald.

Pilferers of News.

Yesterday morning by the bright light, about 6 o'clock, Officer Rich and Superintendent of Routes Chandler saw Bert Starr and Frank Austin, youths aged about 16 years, stealing copies of THE TIMES from subscribers' doors on Temple street. The boys had taken about twenty-five papers from as many subscribers, and had also taken a package from the alleyway in the rear of the TIMES pressroom. They were arraigned before Justice Austin yesterday, and sentenced to the Boys' and Girls' Aid Society Home, San Francisco, for one year each.

Tried to Bribe an Officer.

Sam Yune is in trouble and under a cash bail of $150 for his appearance before Justice Lockwood to answer the charge of attempting to bribe an officer. It seems that Sam deals a lottery game in the Chinese quarter, and the frequent raids of the officers became monotonous, so he said to Officer Auble: "Sabe? Me give $5, you no more stop lottely. Sabe?" Sam was arrested and taken to the station.

In Bad Business.

A gentleman who lives in the vicinity of the Sixth-street Park made a complaint at the police station last evening to the effect that a hybrid fellow lurks around the park making insulting proposals to little girls, sending notes to school girls and acting in a general disorderly manner in the park, especially on Sundays. The gentleman stated that the individual is the usher for the Caucasion Seer lecturer, on Broadway.

HE WAS ASHAMED

To Ask Again, but His Frank Letter Got It for Him.

A few months ago one of the unfortunate inmates in the San Francisco Almshouse was inspired by the sensational statements in the newspapers with the belief that Joy's Vegetable Sarsaparilla would help him. But without money, how to get it was the question. Finally he wrote to the Edwin W. Joy Co., appealing to their generosity, and it was not unheeded, the coveted preparation being sent by the next parcel delivery. Its effect is best told in a subsequent letter, from which we quote the following:—

"I suppose you know me by this writing, and my circumstances and condition. Although I am improving, I ask of your generosity for another bottle of your Joy's Vegetable Sarsaparilla. The action of its laxative properties is perfection itself. It has so thoroughly regulated my system that my catarrh, rheumatism, constipation, and headaches are all better. I feel ashamed to ask in this way, but what shall I do? I thought I might not need any more, but I am now so anxious to keep it up; but you see how it is."

It was sent, and he can get more if he needs it.

ON THE RAIL.

A Striking Story About the Cross Road.

RATTLESNAKE ISLAND AGAIN.

Has the New Line Bought It for a Terminus in the Interest of the Union Pacific?

General Manager K. H. Wade of the Santa Fé is about to put fast trains on between this city and Chicago. He expects to run passenger trains to Chicago in three days, cutting the time down about twenty hours. This will put trains into New York city in about four days. The time-table will also be changed, and passenger trains will leave for the East at 12 o'clock, noon. The passenger departments of both roads state that business is much better now than it has been for two years previously.

A CROSS ROAD RUMOR.

General Manager Thomas B. Burnett of the Cross road, who was appointed only a few weeks ago, and made a flying visit to this city, is now in New York. It leaked out yesterday that the owners of the Cross road have about closed a trade for Rattlesnake Island. As the story goes, they will build to the island, where they will construct wharves and warehouses. They also intend to secure terminal facilities in this city for all of the short line roads, and will form a city terminal company. This will give the Cross road a big advantage, and it goes to prove that THE TIMES' prediction the other day to the effect that the Union Pacific is behind the Cross road is true. Rattlesnake Island was purchased about two years ago by the same people who secured the so-called Union Pacific franchise in this city. One payment was made on the island, and several hundred thousand dollars' worth of bonds were issued. Some of the bonds were sold, and the chances are that there will be quite a lively lawsuit before the Dominguez family, the original owners of the island, can give a clear title, notwithstanding the fact that only one payment has been made. Rattlesnake Island will make a splendid terminal point, and will give harbor facilities.

ANOTEER PASS.

In connection with the extension of the Atlantic and Pacific from Mojave to San Francisco, a prominent business man of this city has received a letter from J. B. Beckwith of Tulare. It seems from Mr. Beckwith's letter that he and an engineer have discovered a pass through the mountains that is far superior to the Tojon Pass. He says their pass is much nearer, and he gives the grade as follows: Commencing at a point near the southerly end of a valley for the first four miles there will be a grade of 75 feet to the mile; for the next 15 miles, up a cañon, there is a grade of 135 feet to the mile; for the next 20 miles, in open country, there is a grade of 125 feet to the mile, but this grade can be considerably lessened by swinging around the summit. From the summit to the Mojave desert the grade is much less and through open country. The writer states that there will be but two tunnels, and probably they can get through with but one, and that not to exceed one thousand feet in length. Mr. Beckwith estimates that it will not cost over fifteen thousand dollars to grade through fifteen miles of the cañon, which will be the hardest part. Mr. Beckwith and his partner want a certain sum for information regarding this pass, and ask the person to whom the letter is addressed to put them in communication with the Union Pacific legal advisers on this coast.

NOTES.

A. H. Denker of this city has received a letter from James H. Bacon, financial agent of the Utah, Nevada and California Railroad, acknowledging the receipt of a copy of THE TIMES Annual Trade Number. He states that he highly appreciates the paper, and expresses a hope that Salt Lake and Los Angeles may be closely allied in business in the near future.

Assistant Freight and Passenger Agent Crawley of the Southern Pacific states that freight business is improving all the time.

Two or three excursion parties will be due here from the East next week.

THE Catholics in Wisconsin are making a hot fight against the Bennett law.

THERE is a movement on foot in London to have Robert Louis Stevenson made the British Consul at Samoa.

MEXICO is becoming rapidly Americanized—or perhaps we should say, German-Americanized. A St. Louis company, worth $5,000,000 capital, is about starting an immense beer garden in the City of Mexico.

AFTER all, we shall have to admit that the soil of Florida is in some respects richer than that of California. Sharks' teeth, which are found in great quantities in the soil of that State, are being utilized in the manufacture of jewelry.

STANLEY believes in colonizing the Upper Congo region with colored emigrants from the United States. He describes the country as much superior in climatic and other advantages to that they now occupy, and as of sufficient area to give 7,000,000 colonists a quarter of a square mile of land to a man.

THE Senate has adopted a resolution introduced by Mr. Stewart calling on the Secretary of the Interior for information as to how much of the money appropriated for irrigation surveys, etc., last year, was diverted to the topographic surveys, and by what authority.

AS AN indication of the truth of the assertion that Sixth-street interests have combined to try to prevent a traffic grade on First street, the spectacle presented in the Council on Monday last is sufficient. When the subject was before Council a few weeks ago we then beheld Mr. Frankenfield voting for, and Dr. Sinsabaugh and Rev. Hough speaking in favor of it. On Monday last the public observed a complete change of front on their part, the two last named being the champion knights pitted against the measure, and Mr. Frankenfield voting against it. These three gentlemen all have strong business interests in the vicinity of Sixth and Broadway. They are smart enough to see that if the people of the area comprising one-fifth of the city can be forced to go around the hill by Sixth street they are doing that much toward forcing the business center of the city in that direction.

IT was scarcely necessary to announce that the silver bill introduced by Senator Plumb was prepared by a banker. It bears the marks of the gold bugs all through it, and is, in some respects, even more objectionable than the Windom bill. The Secretary of the Treasury is directed to buy silver bullion to the aggregate amount of $4,500,000, at the market price, "but not exceeding one dollar." The present market price is several cents higher than that. The notes are to be redeemable in coin at the treasury or sub-treasuries, but the Secretary of the Treasury may, after the expiration of two years from the passage of this act, prescribe regulations for the redemption of notes on demand of the holders in an amount of silver bullion worth, at the market price on the date of redemption, the face amount of the notes thus redeemed in bullion. Such a measure as this will never satisfy even the most conservative silver men.

SOME northern papers continue to harp on the State division question, with especial reference to Col. Markham. They are very unwise in doing this. State division is not a point at issue. It is not a live question of the day. There is no excuse for its interpolation at this juncture. As to Col. Markham, no man in California has a clearer record on this question than he. He has never expressed himself in favor of division, and there is absolutely no ground for the use of his name in this connection. The constant harping upon this subject by the northern press is also unwise, because it creates a needless friction. We, as anti-divisionists, admit that there are some good citizens of Southern California who entertain division views, as they have a perfect right to do. Should the north force an anti-divison resolution down the throats of the delegates to the Republican convention it will fan the flame of disaffection, which, by a judicious and fair attitude on the part of our northern brethren, might easily be allayed.

VANDEVER AND HIS IGNIS FATUUS.

Upon the occasion of a representative in Congress coming forward the third time for the indorsement of his people, it is proper to review his career during the terms he has already spent in Congress, in order to ascertain upon what grounds he asks the approval of his fellow-citizens and their support in the future.

Gen. William Vandever has twice been elected to Congress from the Sixth California District, and is now nearing the end of his second term.

A brief reference only to his first term is needed here. After a tremendous effort on the part of his Republican friends—he being then a man new to California and the district—he was elected by the skin of his teeth. A contest for his seat followed, his Democratic rival, Joseph D. Lynch, pressing hard for the place and making out a case which almost proved to be a good one, and which at one time certainly placed the Republican Congressman in imminent peril of his political life. A Democratic House, however, upon an examination of all the facts and a review of the testimony presented on both sides, awarded the seat to Gen. Vandever, and he was enabled to go about his Congressional business, after a large portion of his first term had been frittered away by the needless and harassing contest. Thus, without any fault of his own, his first term was spent with the accomplishment of practically nothing for the people of his district.

Then came on the contest for his renomination. In that struggle he was again sustained by the true friends and valiant fighters who had first brought him to the front and carried his standard to victory. These friends, believing that Vandever had not had a fair show in his first contest and was entitled to vindication, stood by him with unalterable determination and demanded, with united voice, that he should be renominated. He was secretly and treacherously opposed in his aspirations for a second term by a coterie of disreputable Los Angeles politicians, headed by a dishonorable and disreputable newspaper, because Vandever had shown at least the semblance of opposition to the private and selfish will of this gang of malcontents and disturbers. Every means possible, save those of open and honorable opposition, were resorted to by this gang to defeat Vandever's renomination in 1888, but all without avail. Vandever's loyal friends, led by the Los Angeles delegation, stood for him like a rock in the convention, brushing aside the malcontents and crushing all opposition.

Then came the contest for his election. Crushed in the convention, the opposing gang changed front with customary adroitness, and sought to take possession of Vandever and his canvass. The same men who had secretly opposed him in his first canvass; who had ridiculed him and his defense in the contest before the House; who had sneered at his age and feebleness; who had decried his ability and belittled his services, and who had attempted to throw him down for the nomination for his second term, now hovered about him, like flies around a saccharine deposit, and said to him, with oily smiles and in tones of saccharine seductiveness: "Gen. Vandever, let us take charge of your campaign; we are smart politicians, great journalists and mighty campaigners; we will pull you through," adding *sotto voce*, "for the patronage of your office."

Vandever, with amazing weakness and marvelous credulity, listened with ears intent to the siren song of the smooth scoundrels who had gathered about him uninvited, and, before he knew it, he was a prisoner in their camp, had committed and compromised himself to them, played false to the long time and sterling friends who had unselfishly helped him forward in his political career in California, and tied himself, hand and foot, so far as his next term was concerned, by reckless promises, then unknown, save to the gang, but since uncovered.

The election came on and Vandever went into office on a flood tide of Republican enthusiasm, evoked by the nomination of Benjamin Harrison for the Presidency. The Sixth District outdid itself, outstripped the fondest anticipations of victory which had been indulged by the wildest Republican enthusiast; astonished the State and riveted the attention of the country. From the narrow margin of less than one hundred in his first election, Vandever's majority leaped to the enormous figure of seven thousand, carrying him into the Fifty-first Congress with a political impetus rare in the history of that body. It was a magnificent majority, a proud record, a noble backing for any statesman, however great. Much more was it an unexpected distinction for a man of the caliber and build of Vandever. It was an indorsement so strong, so emphatic, so honorable, that it might well evoke not only the gratitude but the supreme effort of the recipient in behalf of his people. Few representatives indeed have ever received such an indorsement. It might have been blind; it might have been mistaken; it might have been accident, but the indorsement was there all the same.

What has been the result?—what the outcome? Let us see.

Gen. Vandever is the author of the following "notable" achievements during his present term:

(1.) He has introduced a bill for the division of the State—an act of folly, a measure of impracticability not warranted by the Constitution of the United States or the Legislature of California; not demanded by any exigency of the times (however much we of the south may sometimes have cause for complaint against our northern neighbors) and promising no beneficial result, only harm—harm flowing from the antagonisms aroused in the minds of our northern neighbors by the Representative's vain and demagogic act. From those antagonisms we are now suffering.

(2.) He has introduced a measure which, sugar-coated though it was, really looks to the ultimate violation of the autonomy of the territory of a friendly republic; for his Lower California scheme, disguise it as you will, can have no other object or effect, if carried into practice, than to embroil the two countries, now at peace, in unpleasant, and therefore unprofitable, differences. Knowing the jealousy with which the patriotic Mexican people look upon any attempt to impair the integrity of their domain; knowing, too, the slight demand and little use which the people of the United States have for the territory in question; and knowing, further, as he ought to have known, the utter impracticability of his hare-brained scheme, we unhesitatingly assert that Mr. Vandever was throwing away his time, neglecting his legitimate duties, disregarding the will of his constituents, and committing an act of inexcusable folly, when he crossed the line, in his mind's eye, and invaded Mexican territory, with a paper pronunciamiento projected from his seat in Congress. The act was foolish, futile and mischievous, and, joined to the vealy vaporings of a greedy Governor, properly called forth the disapprobation of the Secretary of State, who found it necessary to reassure the government of Mexico, by officially declaring that the threatened movements against Lower California were "of no importance whatever."

(3.) Gen. Vandever has signally failed, thus far, to accomplish anything in the way of Congressional legislation adequate to the wants of the principal city, county and port in his district. The pitiful sum of $35,000 for the port of San Pedro is all that we will get, and we are not sure of that; the appropriation for the public building in Los Angeles is at the bottom of the list, and we have no positive assurance that it will go through; the bill to make this city a free port of entry sleeps in committee; and, generally, the work accomplished by our back number Representative may be indicated by zero.

(4.) He has made a multitude of promises; violated as many needlessly; made enemies in every county in the district; lost his head, lost his memory, lost his grip; gratuitously insulted more than one friend; put personal indignities upon his most loyal adherents; aided in securing a few passable appointments and weakly acquiesced in the choice of some as low-grade cattle as were ever rounded up in the political corral. Starting out with the high-sounding boast that he meant to be, in the matter of appointments, the political dictator of his district, he has signally fallen down in nearly every instance before the superior will power of the real political dictator and despot of California, weakly surrendering prerogatives which, by right and precedent, clearly belonged to the Representative and not to the Senator.

This is an enumeration of the principal public achievements of Gen. William Vandever during his second term in Congress. If the record contains anything more of consequence, we are not aware of it.

And yet this man seeks a renomination and a reëlection!

"Great God, what do I see and hear?"

AMUSEMENTS.

GRAND OPERA-HOUSE.—*Paul Kauvar* will be repeated tonight.

LOS ANGELES THEATER.—The entertainment furnished last night to the patrons of this house was almost unique of its kind. Amusement lovers have become satiated with the farce-comedy, which is a variety show spoiled in the making, and it is therefore a relief to find a variety entertainment pure and simple which does not pretend to be anything else. It is true that it is heralded under the unmeaning, or at least quite inappropriate title of "vaudevilles," but a glance at the programme disposes of any captious objection on this score, and the performance itself is by far the best of its kind ever given in Los Angeles. It is entirely free from any coarseness, and contains so many amusing features as to make it thoroughly enjoyable to young and old.

There is some excellent dancing by Katie Seymour, who exemplifies the poetry of motion in a really artistic manner; nothing more graceful than her delightfully lissome movements can be conceived. There is an extraordinary acrobatic act, "The Spider and the Fly," by the Athols; also a juvenile prodigy, only one, however, but he is good of his kind.

Then there is the ever green Gus Williams, with his local hits which brought down the house. The electric clown and his singing dog and a host of other clever acts made the entertainment most amusing.

Charles J. Ross and Mabel Fenton were exceedingly good in their burlesque tragedy, and the imitations of Ross of several celebrated actors were remarkable for their humorous fidelity.

Perhaps the most striking part of the entertainment is that given by Trewey, who combines a number of difficult arts to perfection. He is an equilibrist of a unique kind, being able to balance all sorts of apparently impossible things. He is a facial contortionist, and, under the shadow of one hat, which he squeezes into different shapes, shows twenty different faces. He is also a clever prestidigitator, and finally gives a shadow pantomime with his hands alone, which seemed to give more pleasure to the audience than anything else.

The house was very well filled and the large audience delighted. The company closes on Friday night and gives a matinée on Decoration day.

The Crowning Achievement of His Term.

[Ventura Democrat.]

THE TIMES, purposely or otherwise, ignores the agency of Vandever in the matter of Green's appointment. It was reported from Washington that he made that his pet scheme—next to the annexation of Lower California—and stuck to his man through good and evil report in defiance of all protests against the appointment, until he landed him in the place. Vandever, according to the announced policy of the Administration with respect to the disbursement of Federal patronage, is the man who should have had the say in the matter, not Stanford, and the one against whom THE TIMES' criticism ought properly to have been directed. It probably thought the game was not worth the powder.

[Can the ancient politician's home paper throw a light on the story that Green, after qualifying, is to be retired? If he is, there may be a pair of them.]

Bowers from a San Diego Standpoint.

[San Diego Sun, May 23.]

He (Senator Bowers) ought to get the delegates, particularly as against an outside man, and will do so if his friends are as active and vigilant as has been their wont. . . . *There is no doubt that he would secure this city and county all that it needs in the way of appropriations, and at the same time render useful service to the other parts of the district.*

SOLD BY HER LOVER.

A Chinese Girl's Sad Fate in New York.

Huntington Downs the Goulds in the Struggle for Pacific Mail.

A Florida Editor Thrashed for Publishing an Obnoxious Article.

Exporters of American Cattle Losing Their Market in Europe—Santa Fe's President Bulldozes Jay Gould.

By Telegraph to The Times.

NEW YORK, May 27.—[By the Associated Press.] A strange story came out at a hearing in the Tombs court today. A young Chinese maiden was the victim. She had been locked up on the top floor of No. 11 Mott street, and compelled to submit to indignities from Chinamen. It further appeared that she was sold to her master by her lover for $600. The case was discovered by a reporter.

Suen Yee is the pretty 17-year-old victim. She came to this country five years ago, four of which she spent in San Francisco. She was handmaid of a wealthy Chinese bride. One day she fell in love with Ah Poor, a Chinese gambler. Scandal drove her from her lover's home. She came to New York disguised as a boy and in Poor's company. Her gambler lover was unfortunate and poverty drove him to sell the girl to Lee Khi. Lee Khi was held in $2500 bail for examination tomorrow.

CATTLE SHIPMENTS.

Large Falling Off in Exports to Europe.

NEW YORK, May 27.—[By the Associated Press.] Shipments of American cattle to Europe, alive and dead, last week amounted to 15,000 head, a falling off of 25 per cent. from the week before. At a loss estimated at three dollars a head, the shipments represent a clear loss of $45,000 to exporters. The condition of the English market has become so bad that shippers find it less disastrous to keep cattle here and lose $20 a head freight, space for which they have contracted in some instances as far ahead as September 1st. They have a chance of utilizing the freight space for other purposes.

Meyer Goldsmith of this city, one of the heaviest exporters, sent out yesterday 504 sheep in space which he expected to fill with cattle. He said he would lose money on the sheep, but not so much as if he shipped cattle. A sharp falling off in cattle exports may thus be expected, if not indeed a total cessation. Never before has there been such demoralization among shippers. Telegrams asking relief have been pouring in on steamship agents during the week. One shipper offered $30,000 to cancel his contract with one line. Shippers also fear that Parliament will pass a law placing a duty on cattle to protect English cattlemen.

RAILWAY MEETING.

Directors of the Atlantic and Pacific Elected.

NEW YORK, May 27.—[By the Associated Press.] Directors of the Atlantic and Pacific Railroad were today elected as follows: George C. Magoun, Thomas Baring, Cecil Baring, J. J. McCook, B. P. Cheney, William Libbey, E. A. Abbott, J. A. Williamson, Allen Spence, Samuel Hayes, Levi C. Wade, J. D. Springer and Allen Maxwell.

DENVER, May 27.—The fourth annual meeting of the stockholders of the Denver and Rio Grande Railroad was held at the office of President Moffatt this afternoon, at which 80 per cent. of the stock was represented. The old board of directors was re-elected. They will meet in New York June 5th for the purpose of electing officers. The gross earnings of the company for the last fiscal year were $8,046,603.35, an increase over last year of $768,437.

BADLY THRASHED.

A Florida Editor Receives a Severe Beating.

JACKSONVILLE (Fla.,) May 27.—[By the Associated Press.] The Florida Republican last week contained an article charging Capt. Burroughs of Tallahassee with others with having made the recent attack on the house of Mrs. Craft. Today Capt. Burroughs called on Zeph Harrison, publisher of the paper, and demanded the name of the writer of the article. Harrison refused to give it, whereupon Burroughs gave him a most severe beating with his fists and a cane. Harrison will be laid up for some time. Ex-Gov. Reed, who was in the office, received a severe blow by accident.

SILCOTT AGAIN.

The Defaulter Seen in a Dominion Town.

BOSTON, May 27.—[By the Associated Press.] Dispatches to the Globe from Grand Falls, Quebec, say that a hotel-keeper there received information that a mysterious couple who had been living in St. Louis parish were believed to be the defaulter Silcott and a woman companion. The hotel-keeper went out to hunt them up, but when he reached the point he found the couple had flown. The hotel-keeper has no doubt, from the stories of a number of men, that the man was Silcott.

Manvel Bulldozes Gould.

NEW YORK, May 27.—A local paper says President Manvel of the Atchison system recently wrote to Jay Gould that unless he stopped rate-cutting by the Missouri Pacific he (Manvel) would inauguarate a war on roads and on Mexican business that would make things hum. Wall Street heard today that Jay and George Gould had called on Mr. Manvel and made overtures for a settlement of the trouble, saying they desired the rate war stopped. This, it is believed, will soon bring about a cessation of hostilities.

Third Attempt to Burn a Town.

TOLEDO (O.,) May 27.—An incendiary fire destroyed several buildings in Bowling Green this morning, entailing a loss of $45,000. This is the third attempt within a year to burn the town, and much excitement prevails.

PACIFIC MAIL.

The Gould Party to Be Ousted from the Company Today.

NEW YORK, May 27.—[By the Associated Press.] Parties holding Pacific Mail stock state that the following ticket will be elected at the annual meeting tomorrow: C. P. Huntington, C. Gates, Henry Hart, Ed Lauterbach, Calvin S. Brice, Samuel Thomas, Oliver H. Payne and J. B. Houston.

The election of this ticket means the signal defeat of the Gould interests, which have held control of the company for several years, and it is also antagonistic to the Northern Pacific, and appears to be more in the interest of the Manitoba and Canadian Pacific roads.

J. B. Houston, who held the presidency before the Gould party obtained control, will resume that office. Jay Gould, George Gould, Sidney Dillon, Russell Sage and William Remsen will retire from the directory.

The Peace Society.

BOSTON, May 27.—At the annual meeting of the American Peace Society today the following delegates were chosen to the universal peace congress in London in July: David Dudley Field of New York, Dr. John Nutt and Otis Magaw Howard of Chicago, Philip C. Garrott of Philadelphia and eight others.

Government Official Murdered.

JACKSON (Miss.,) May 27.—A. N. Kimball, Receiver of Public Moneys, was murdered last night on his way home. His body was found this morning. It is supposed the crime was committed for robbery.

THE WORLD'S FAIR.

PREPARATIONS FOR CALIFORNIA'S EXHIBIT.

An Important Meeting at the San Francisco Chamber of Commerce—A Discussion of the Ways and Means.

By Telegraph to The Times.

SAN FRANCISCO, May 27.—[By the Associated Press.] The Chamber of Commerce was well filled today by business men in response to a call from Mayor Pond for a meeting to make preliminary arrangements for the California exhibit at the World's Fair. Mayor Pond was chosen chairman. A resolution was approved recommending that there be twelve representatives chosen from each association represented.

Col. Irish read a paper on the objects of the World's Fair committee.

C. L. Taylor offered a resolution that the Mayor appoint a committee composed of one delegate from each association represented, together with the editor or proprietor of each daily paper, to prepare a plan and call for a State convention, and also for a local organization to be known as the San Francisco World's Fair Association, the committee to report to the convention, June 3d.

Col. Irish offered resolutions heretofore adopted by the State Board of Trade as a substitute for Taylor's resolution.

A motion to refer the substitute to a committee was rejected.

After a lengthy debate, W. H. Mills offered a resolution, which was adopted, referring the whole matter to a committee of one from each organization represented, to report at a meeting to be held next Tuesday.

The Cannon Burst.

SYRACUSE (N. Y.,) May 27.—The third test of Justin's dynamite cartridge was to be made at Perrysville this afternoon. At the first discharge the cannon was burst to pieces. No one was injured, but the crowd was badly frightened. It is claimed that there was a flaw in the cannon, which was a relic of the late civil war.

The Vicksburg Reunion.

VICKSBURG (Miss.,) May 27.—The second day of the reunion of the blue and gray was a great success. A number of happy speeches were mede by northern and southern orators, and in the afternoon there was a grand parade. On Friday the veterans of both armies will unite in decorating the graves of the dead.

Annual Meeting of the American Unitarian Association—A New Plan for the Election of Directors.

By Telegraph to The Times.

SARATOGA (N. Y.,) May 27.—[By the Associated Press.] In the Presbyterian General Assembly this morning the reports of the committee on narrative gave the summary of progress of the entire field. The total number of communicants is over 856,000, a gain during the year of 108,000. Benevolent contributions to all causes are no less than $1,300,000. In spite of Sabbath-breaking, gambling, intemperance, floods and disease, no year has seen such an increase of members.

Elder Trumbull of California presented a resolution in favor of meetings with sessions at least monthly. Adopted.

It was also resolved that Elder Flickinger and Griffith of Iowa urge upon Congress, in the name of the assembly, the passage of the law permitting States to prohibit or restrict the liquor traffic, now before the Senate.

A motion that the revision committee be allowed to publish their conclusions as early as March or April next was adopted.

The assembly adjourned to meet in Detroit next year.

After adjournment the committee on revision met and decided to meet at Pittsburgh, the first Tuesday in October,

Annual Meeting—New Plan for Electing Directors.

BOSTON, May 27.—[By the Associated Press.] The sixth annual meeting of the American Unitarian Association began today. The nominating committee, instructed last year to formulate and adopt a method of election of directors, reported, recommending the adoption of the method used in the election of Harvard overseers, with certain modifications. In regard to women on the board the report says that while it is fitting that men have the practical management, it is equally fitting that women participate therein, and recommends that in every annual election the name of one woman be placed in the list of nominees. This would secure the presence of three women directors on the board at present. In regard to the number of directors on the side of New England, the committee finds that three members from the Middle and Southern States and three from the Western States and Pacific Coast the proper proportion. The report presented a number of nominations for officers. It was accepted and the committee discharged, but the report was not adopted.

The association then proceeded to vote on the plan of nomination for the coming year, finally deciding upon sending twenty-four names for directors to all life members and church and missionary societies entitled to delegates, from which tickets shall be selected, on the geographical lines already laid down, and returned to the committee or presented to the convention.

The report of the directors stated that the record of the year was satisfactory. Men and money are in demand, however. The report speaks especially hopefully of the work in Japan.

At the afternoon session the list of directors nominated at the morning session were declared elected.

Rev. H. A. Delano of Illinois reported temperance resolutions, deploring the results of the recent decision of the Supreme Court and hoping that Congress would pass such laws as to render the decision inoperative.

Resolutions were adopted condemning lotteries, and declaring that no State should license them.

The Congregationalists.

BOSTON, May 27.—Reports were read at the annual meeting of the Congregational Sunday-school and Publication Society today which showed encouraging progress. During the year 581 new Sunday-schools were organized and 1317 schools in 47 States and Territories have been aided. S. B. Capen of Boston was elected president. A number of other officers were also elected.

The annual meeting of the American Congregationalists was held this afternoon under the presidency of Rufus F. Frost. It was devoted largely to consideration of the proposition for a new Congregational publishing-house. The constitution was amended to increase the board of directors to thirty. Among the vice-presidents elected is the Rev. John K. McLean of San Francisco.

Christian Scientists.

NEW YORK, May 27.—The National Association of Christian Scientists began its annual convention today. Reports were read from all parts of the country showing a marvelous growth of the sect. Among the speakers were Miss Bradshaw of San Francisco and S. W. Gale of San Diego.

CONGRESS.

AN ALLEGED LEAK IN UNCLE SAM'S REVENUES.

The Anti-liquor Bill Again Before the Senate—The House Considering River and Harbor Appropriations.

By Telegraph to The Times.

WASHINGTON, May 27.—[By the Associated Press.] *Senate.*—Mr. Blackburn was excused from further service on the Committee on Territories.

Mr. Allison presented a remonstrance of citizens of Burlington, Iowa, against imposition of duties on ores from Mexico.

Mr. Cullum offered a resolution calling on the Secretary of the Treasury for information as to the authority under which merchandise in bond, appraised or unappraised, and goods of domestic origin, are permitted to be forwarded between Atlantic and Pacific ports of the United States over the Canadian Pacific Railroad, etc.; also to report by what authority merchandise other than products of contiguous countries are permitted to enter the United States under consular seal and proceed to destination without entry or examination at the port of first arrival. There was, he said, evidence of irregularities and that the country was probably losing some of its revenues.

The resolution went over until tomorrow.

The Senate then resumed consideration of the Imported Liquors Bill, the question being on the substitute reported yesterday from the Judiciary Committee.

Mr. Call argued against the constitutional right of Congress to delegate its powers back to States.

Mr. George supported the bill.

Mr. Eustis said the effect of the passage of the bill would be that States would be coming to Congress soon and asking permission to exclude cottonseed oil, dressed beef and other articles, and finally to build up an impenetrable wall about their borders against products from foreign countries and other States. He was a State-rights Democrat of the strictest sort, and in favor of States exercising to an unlimited extent the rights which they had reserved, but the powers which they had lodged in the Federal Government, and lodged wisely, he wanted the Federal Government to exercise exclusively.

After further debate the bill went over until tomorrow.

The Vice-President announced the appointment of Mr. Blackburn as a member of the Committee on Appropriations and Mr. Carlisle as a member of the committees on Finance, Territories and Woman Suffrage.

The conference report on the bill to simplify the law in relation to the collection of revenue was presented and agreed to.

After an executive session the Senate adjourned.

House.—Mr. McKinley of Ohio submitted a conference report upon the Customs Administrative Bill.

Mr. McMillin of Tennessee, one of the conferees, said he declined to agree to the report for the reason that he believed the bill would increase taxation. Outside the sugar schedule, the Tariff Bill increased duties to an average of 58 per cent. The pending measure would raise the average between 60 and 70 per cent. This would result in the prevention of imports, closing of custom-houses and destruction of commerce.

Mr. McKinley said the measure was substantially the bill recommended by the Secretaries of the Treasury for the last three administrations, and practically the same as the Mills bill. It was a bill not to increase the rates of duty, but to prevent frauds upon the revenue.

The conference report was adopted—yeas, 127; nays, 12—the Speaker pro tem. counting a quorum. The Democrats as a rule refrained from voting.

The House went into committee of the whole on the River and Harbor Appropriation Bill. Some minor amendments were offered and rejected.

Mr. McCreary raised a point of order against those portions of the bill which prescribed a penalty for the maintenance of obstructive bridges across navigable waters.

Pending decision the committee rose and the House adjourned.

Nominations.

Secretary Blaine Presents the Pan-American Banking Scheme to Congress with Strong Recommendations.

By Telegraph to The Times.

WASHINGTON, May 27.—[By the Associated Press.] Delagate Smith of Arizona this morning handed President Harrison a telegram from the citizens of Tombstone, Ariz., giving the verdict of the coroner's jury in the case of Robert Hardie, killed by Apaches near Rucker Cañon, complaining bitterly of lack of proper military protection for that country.

The President indorsed the telegram as follows: "This telegram is submitted for information of the Secretary of War with directions to take prompt, effective measures to protect the settlers, and to capture and bring to merited punishment any hostile Indians who have been concerned in the killing of our citizens."

Maj.-Gen. Miles, in a telegram to the War Department, says the commanding General of the Department of Arizona has been directed to make such disposition of troops as will make it untenable for hostile Indians and will give protection to settlers.

A PAN-AMERICAN BANK.

The Scheme Presented to Congress—Its Main Features.

WASHINGTON, May 27.—[By the Associated Press.] The President today transmitted to Congress a letter from the Secretary of State inclosing the report of the International American Conference on the international American bank scheme. In his letter the President says it is not proposed to involve the United States in any financial responsibility, but only to give to the proposed bank a corporate franchise and promote public confidence by requiring its condition and transactions to be submitted to a scrutiny similar to that exercised over our domestic banking system. The subject is submitted for the consideration of Congress in the belief that it will be found possible to promote the end desired by legislation, so guided as to avoid all just criticism. In his letter to the President Secretary Blaine sets forth the advantages to be derived from such a project, and says, in part:

The merchants of this country are as dependent upon the bankers of Europe in their financial transactions with their American neighbors as they are upon the ship-owners of Great Britain for transportation facilities, and will continue to labor under those embarrassments until direct banking systems are established. The report of the committee of the Pan-American Conference presents a simple and easy method of relief, and the enactment of the measure recommended will, in the judgment of the conference, result in the establishment of proper facilities for inter-American banking.

A bill has been prepared in the State Department to carry into effect the recommendations of the committee. The bill designates the United States delegates to the Pan-American conference commissioners to receive subscriptions to the capital stock of "The International American banks," the books for which purpose may be opened in Washington, New York and other principal cities in the American Republic. As soon as 50,000 shares are subscribed, the subscribers shall have the usual powers to organize the corporation, which shall have the same privileges now enjoyed by banks generally. Its acquisition of real estate, however, is limited to 15 per cent. of the capital stock paid in. The corporation may be designated by the Secretary of the Treasury as a depository of public money, and may be employed as the financial agent of the Government. The principal officers shall be in Washington or New York, with power to open branch offices in the United States of Mexico and in South and Central America. The capital stock is fixed at $10,000,000 in $100 shares, which may be increased by a two-thirds vote to not to exceed $25,000,000. Business may be begun as soon as 25 per cent. of the subscription is paid in cash, but at least $5,000,000 must be paid in within two years. The board of directors shall consist of 25 persons, not less than 15 to be citizens of the United States. Stockholders are made liable to the amount of their subscription, but for no more. The corporation shall file, semi-annually, with the Secretary of the Treasury a report of its financial condition, and its affairs shall at all times be open to examination by officers of the Treasury Department.

Provisions are made for the appointment of a receiver and winding up of affairs in case the capital stock is impaired more than 20 per cent. of the amount of capital stock actually paid in and if the directors fail to make such impairment good.

What Will Happen to Persons Who Snub Census Inquisitors.

WASHINGTON, May 27.—[By the Associated Press.] The Superintendent of Census has issued the following important order to all census supervisors:

Please instruct examiners in cases where persons refuse to answer the questions of the population schedule relating to physical and mental disabilities (22 and 23) or to questions relating to farms, homes and mortgages (28 to 30, inclusive,) to enter in the proper column the words, "Refused to answer." No further steps will be necessary on the part of the supervisor or enumerator. All legal proceedings will be instituted by the Washington office through the Department of Justice.

THE COUNTRY'S DEBTS.

Preliminary Reports of the Eleventh Census

WASHINGTON, May 27.—[By the Associated Press.] The census office today made public the first results of the eleventh census in relation to State and local finance. It consists of preliminary reports on the indebtedness of 2809 counties in the United States. The reports show the principal State debts at the present time to be $228,679,817. Of this $194,954,206 is bonded and $33,725,610 floating. This shows a net decrease in the total debt during the past 10 years of $54,459,484, the bonded debt having been decreased by $64,083,249 and the floating debt increased by $9,623,764. The decrease by geographical division has been as follows: Eastern States, $11,296,137; Middle, $11,387,482; Southern, $28,022,964; Western, $3,752,920; total bonded debt of the United States, $1,709,998,100 in 1880 and $719,178,570 in 1890. This shows a total decrease of $1,064,897,780, State and national, in 10 years. The total bonded debt of 2809 counties in the United States and Territories is $130,734,959, against $104,493,752 in 1880. The floating debt in 1880 was $16,745,331, while the present floating debt is $14,958,881, a decrease of $1,786,450. This shows an increase in the total debt of counties during the last 10 years of $24,454,756.

ENDED HIS TROUBLES.

A Despondent German Takes His Life.

ST. HELENA, May 27.—[By the Associated Press.] Last evening Jacob Grube, 24 years old, in the employ of Beringer Bros., committed suicide by shooting himself in the mouth. Early in the evening he came to town, borrowed a revolver and returned to his room in the men's boarding-house on the vineyard of his employers. Sending his room-mate out with a note to the cellar foreman, he seated himself on his trunk and fired the fatal shot. Death must have been instantaneous, as upon the return of his room-mate life was extinct.

Grube came here from Germany five years ago, and has been in the employ of Beringer Bros. ever since. He was steady and industrious. It is understood by his friends that he was being defrauded out of property rights in Germany and became despondent in consequence.

Mrs. MacDonough's Estate.

SAN FRANCISCO, May 27.—The appraisers of the estate of the late Kate M. MacDonough filed their report today. They value the estate at $2,094,681. Deceased owned $1,466,478 of United States 4-per-cent bonds, and $10,000 of stock in various corporations and had $150,000 in bank. The remainder of the estate consists of real property. The California Theater property which is included herein is valued at $104,162.

Violated the Exclusion Act.

TROY (N.Y.,) May 27.—Five Chinamen are detained at Mahone for violating the exclusion law in crossing the Canadian frontier into this State. The prisoners admitted that they came from Montreal. Two Americans came with them. One was arrested, and it is believed he is one of the gang that has a contract to smuggle into the United States two hundred Chinamen. The other American escaped. The Chinamen will be sent back.

A POMONA BLOOD

Forged the Name of His Wife and Went to Jail.

[San Francisco Examiner Special, May 25.]

A great sensation has been caused by the arrest of Edward Loughrey at a late hour last night on the charge of forgery. He has been confined in the city jail today, and will, no doubt, find bail tomorrow.

Loughrey's career is a strange one. He is but 26 years of age. He is the son of a man who was a poor farmer in Pennsylvania.

He was very poor until 18 years of age, when an old man, out of friendship, bequeathed him $16,000.

For two years Loughrey lived well in New York, until all his money was gone, and then he turned sailor for a year and made the acquaintance of a rich man, who started the young man in business in Pittsburgh. In one year's time the Sheriff sold the business out, and young Loughrey was left penniless again.

POINTER IN PETROLUM.

He got a pointer on some petroleum deals in Pennsylvania, and borrowing some money he speculated in oil stocks for a month and came of with $8000 clear money. This he spent in travel all over the country and in unfortunate speculations.

He came to Pomona two years ago, and by his winning ways and apparent business talent induced two merchants here to start him in the jewelry business, and for months he had a flourishing trade. Last year he married Mrs. Ida Coffer, the wealthiest woman in Pomona.

Since that time Loughrey has led a wild, reckless life. He has fairly thrown thousands of dollars away. His wife and her friends have begged him to be more considerate, but his profligacy became only the worse.

He has bought with money obtained from his sick wife fast horses, carriages, case after case of champagne, and has spent whole weeks in orgies in Los Angeles and San Diego, and recently his wife left him.

FORGED INDORSEMENT.

Yesterday a note for $12,000 by Loughrey, and indorsed by his wife, fell due at the bank. Mrs. Loughrey declared that the indorsement was a forgery. A warrant for her husband's arrest was made out at once, and the wife declared that she would do nothing to prevent the arrest. Since last night nine more notes indorsed by Mrs. Loughrey's name have come to light, amounting to $14,000. Mrs. Loughrey declares they are all forgeries.

Her husband informed the Examiner correspondent this afternoon that the notes were all genuine, but that unfortunately he had no proof that his wife indorsed them. He vowed vengeance on his wife for permitting him to go to jail, and threatened to make some sensational disclosures when he regained his liberty.

LOUGHREY RELEASED.

SAN FRANCISCO, May 27. — The Chronicle's Pomona special says: Edward M. Loughrey, who was arrested for forging his wife's name to notes to the amount of $14,000, was released yesterday after his wife had settled the alleged forged notes. Loughrey disappeared this morning and his wife thinks he has gone to Los Angeles or San Francisco. She says she will not live with him again.

FIRST STREET.

Arguments for the One-in-Twenty Grade.

FALLACIES OF THE OPPONENTS.

Synopsis of the Remarks Made by J. W. Mitchell, Esq., Before the Council on Monday Last.

The supporters of this movement have done me the honor to request that I close the debate upon their side of the question. In the limited time allowed I cannot go over all the arguments in behalf and against this measure, but will have to confine myself to answering the arguments advanced by the gentlemen in favor of it, as presented this morning. I shall start from the premises that it is a recognized fact that there is a positive necessity for the opening of some thoroughfare into the city from its western boundary; that there is an immediate and crying need for a thoroughfare by which the present and increasing traffic from Cahuenga Valley and the territory lying between Temple street on the north and Seventh street on the south can enter the business center of the city. And further, that First street is the most practical street to open.

I take it that the importance of this improvement, and the necessity for it need not be argued to your honorable body, as that has been gone over before by myself and others. Today, though there has developed a peculiar opposition to this measure—the oppition of some of the business men and business property holders of the business center of the city, it is certainly surprising the argument used in their behalf by the gentleman who has just preceded me. And I am more surprised since it comes from business men. It is urged that the whole assessed value of the property beyond the range of hills immediately on this street is about eighty thousand dollars, and it is proposed to saddle this improvement costing over half a million dollars for the work and damages—solely on this section of the city for the benefit of the outlying district. And the gentleman speaks with great disparagement as to the value of this outlying property as an argument against the improvement. I answer that this is the very reason for the improvement. Your business portion has been improved as much as it can be until it justifies such assessment, while the property lying beyond this hill has been entirely neglected, and is unimproved, because there is no communication between that part of the city and the business center, and the growth of this large area has been retarded by withholding from it its due proportion of the city's advancement and improvement.

The opposition of these gentlemen has been unfairly obtained, I am sure, by an exaggerated statement of the cost of this improvement, and the creating of a fear with them that they will be burdened by an immeasurable assessment. Their opposition is not based on the practicability of the plan and the necessity for the improvement, but the fear, forsooth, that they will be taxed! And the benefit it will do them has been entirely discarded.

You will observe, gentlemen, that the more a man has the more he is taxed, and the more he is taxed the more he hates it. This opposition is caused by this very idea; they do not want to be taxed. If the improvement is a good one and is necessary, it ought to be made, but they just conclude that they do not want to be taxed, and oppose it on general principles.

Now, the opposition say that this improvement will cost thousands and thousands and thousands of dollars, and the damage they will have to pay will be enormous. How do they know this? No one can tell what the cost of this improvement will be until the bids are opened on the works, and if you have the same experience with engineers' figures as you have had in your sewer experience, you can take their estimate with considerable grains of salt added to it. As to the damage that will have to be awarded, any ordinary lawyer will tell you that the measure of damages will be the difference in the value of the property abutting Fort street, before the street is opened, and its value afterward.

Now there is only 480 feet front on First street that will be directly effected by this improvement that could claim damages. Say the damage will be $100 per front foot, and that would only make $48,000, and where now is your cry of hundreds of thousands of dollars damages? But as a matter of fact, when you count the benefit that will accrue or may accrue to this property, under certain circumstances, the damage will not be over $50 per front foot where there will be any right to claim it. As to the claiming of damages from those parties who say that they will be cut off from the use of First street by the arches and tunnels, I give it as my opinion that they will find very little comfort from a jury, when it comes to assessing damages, when jurors would, from the circumstances of the case, consider the importance and necessity of this improvement.

But if we were to get down to the true inwardness of some of this opposition, we would find a great many individual cocoanuts and milk in them all. Certainly there can be no doubt, and with half an eye you can read it in a great portion of this opposition, that some parties are pulling against First street in the interest of Second and Sixth streets and the southern section of the city, and I am surprised that these business men at First street can't see this, and, further, that when they oppose the opening of First street upon a good grade they are, by this opposition, cheating themselves.

The next argument urged is that the proposition strikes a blow to the beautiful hills. This is absolutely absurd; there is no blow struck at the hills or their beauty. The argument advanced by these esthetic gentlemen and worshipers of the lily reminds me very much of an anecdote told about a girl, residing in a house where the backyard abutted on the kitchen yard of a hotel. She used to go to the back window and flirt with the boys, until finally they, becoming bolder, offended her. She sat down, wrote them a note, saying that she wanted them to understand that she did not come to that back window to flirt with them, but to get the benefit of "the fresh air and the scenery." The parties who live on the hills, abutting the backyard of the business property, have been sending just such messages in the shape of protests by way of opposition to this improvement.

There is our good friend, Mr. Bryson, who, like many others protesting here, has been scared to death by the cry of assessment, and who has spoken to you, and says that there is no city in the world where streets have been tunneled, and that he would not use this street if it was tunneled, because his horse would not go through a tunnel. Now, I say to our honorable ex-Mayor, that he hasn't traveled, and that there can be named dozens of cities in the United States that have met like natural obstacles with just such remedies, and if his horse won't go through a short, straight tunnel, fifty feet wide, with light streaming in at both ends, lighting the whole tunnel, then he had better shoot his horse. But I am sure Mr. Bryson and the other property-holders have been scared by the bugaboo of large assessment, and this is the real cause of their opposition.

Now I say to you, gentlemen, and serve notice here, that the parties who are fighting to obtain this needed improvement represent the inevitable principle of progress and necessary public improvement; that, without giving to my words any political significance, this undeniable principle will overcome objections of Council, Mayor's veto and every objection that can be brought against it from any source. It is like the car of Juggernaut—it will crush everything that stands in its way. And I say to you that it behooves the Council to see that this street is opened for the benefit of the whole city. If this street is opened the area beyond this hill, in a short time, will be covered, as it is now being fast covered with magnificent residences and valuable improvements. And will not the increased taxes derived from these enhanced values benefit the whole city and be in full justification of this desired action? There can be no doubt of it.

I thank the Council for its patience and for the consideration it has given this matter.

IN CINCINNATI,

Just After the Sunday-closing Victory.

Commercial Gazette: "Cincinnati could give Puritanical Boston points on a quiet Sunday yesterday. To all intents and purposes the law was observed. As may be imagined, this marked change in the course of saloonkeepers had the effect of making the city unusually quiet—quiet and orderly enough to suit a Quaker."

Associated Press dispatch: "The Sunday law is effectively enforced here today. There is absolutely not a single place within the city limits where a drop of intoxicating liquors can be had, and as a result the police report the quietest Sabbath day of which there is any record."

Times-Starr: "There is no less money in Cincinnati on Monday morning than on Saturday night, whether the saloons are open or shut. It is, however, in different pockets. With the Owen law in force, the money paid as wages on Saturday night finds its way to the grocer, the baker, and the dry goods and clothing merchant. It goes out for fuel, it goes toward paying the rent. The milkman gets some of it, and the police court none of it. There is no loss, positively none, unless Cincinnati is the saloon and the saloon is Cincinnati. . . . Cincinnati's saloons are to be kept closed on Sunday, the good effects of which policy have already begun to appear in the lessened criminal record of Monday morning."

Herald and Presbyter: "If Sunday closing is a spasm, we know of no remedy that will cure such spasms, and prevent frequent repetition, except the removal of the cause."

CROWN HILLS.

A Couple of Petitions on the Water Question.

The Crown Hills Improvement Club met last night, President C. M. Wells in the chair.

The First-street ordinance providing for a traffic grade was discussed, and laid over, pending the Mayor's action.

The water question was also fully discussed, and the following petition was indorsed by the board and ordered presented to the Council:

To the Honorable City Council—GENTLEMEN: As the water that is furnished the people of Los Angeles is very unsatisfactory, and the prices charged exorbitant, and believing that the city should own its own water works, and furnish a supply in an unlimited quantity, and at a minimum cost to the people, and believing that a trust is being formed to buy all the water in sight, we respectfully petition your honorable body to order an investigation as to the cost and feasibility of building an entire new water system, to be paid for by bonds issued by the city. The advantages of such procedure are many. We would have the expenditure of many thousands of dollars, which would insure the livelihood of many idle men, and such expenditure would return to the people in better, cheaper and more wholesome water.

The following petition was also adopted:

To the Honorable the City Council: We respectfully petition your honorable body to take action in regard to the placing of fire hydrants in the Crown Hills district, as ordered by the Council, notice of such order having been served on the Citizens' Water Company by the Clerk April 29, 1890. Our investigation shows that the Citizens' Water Company has only two-inch pipes where hydrants were ordered. The chief of the fire department says it is useless to place fire hydrants on two-inch pipes. The Citizens' Water Company says that if the hydrants are to be placed in four-inch pipes, the city will have to put in such four-inch pipes. We urgently petitition your board to take immediate action in the matter. We have had numerous fires, and sustained the loss of several homes, through the inability to obtain water—homes that could have been saved had we the proper fire protection.

The Pomona Oranges.

The Philadelphia Press has the following to say of a quantity of Pomona oranges received in that city:

Messrs. Walter P. Wilkins Company, Second and Callowhill streets, have received another car of California navel (seedless) oranges. . . . People are wondering why this delicious fruit was not shipped here before. M. P. Johnson, the oldest dealer in oranges we have in Philadelphia, says these Pomona oranges are the juiciest, sweetest and by far the largest he has ever handled. There is surely a fortune in an annual crop of such a superb product.

IT MAY SAVE YOUR LIFE.

"I am broken down and discouraged, and don't know just what to do for my health." This remark we often hear from both men and women that are positively in that condition that life is no longer to them a pleasure, but instead a continual bore. THE GREAT SIERRA KIDNEY AND LIVER CURE is especially adapted for just such cases. It acts gently on the bowels, purifies the blood without unsightly blotches, renovates the kidneys and liver, the great organs of existence that must be kept clear. By thus doing its work it brings the nervous system into a healthy condition, producing sound and refreshing sleep. For all female complaints, leucorrhea, suppressed menses, no matter from what cause, attended by severe pain, and all other complaints so common among women, it immediately relieves and effects a permanent cure. Put aside all prejudice, and give this most wonderful and best of all remedies a trial. Warranted purely vegetable. Delightful to the taste. For sale by all druggists. Take no other.

SIERRA CHEMICAL CO., 2424 Mission Street.

GENTLEMEN: On your bottle label you ask for testimonials in regard to the effect of your remedy. I take pleasure in giving to you my hearty thanks as well as my testimonial, which you can publish. I have suffered a great deal with kidney and liver troubles and have tried many medicines as well as different doctors to get relief. Your GREAT SIERRA KIDNEY AND LIVER CURE was recommended to me and I have given it a trial. Much to my satisfaction, I find it has cured me of all my kidney and liver difficulties, also the severe pains in my back are entirely well. I cheerfully recommend your truly valuable remedy to all in the same condition. Very kindly yours, O. WAHLHEIM, 912 Twentieth St., San Francisco, Cal. F. W. BRAUN & CO., Wholesale Agents.

The Los Angeles Times.

Pasadena News.

BY MAIL, $9 A YEAR. WEDNESDAY MORNING, MAY 28, 1890. BY CARRIER: { PER MONTH 85c / PER YEAR, $10

THE TIMES IN PASADENA.

The advantage to residents of Pasadena in buying THE TIMES consists in the fact that they not only get in its columns the news of their own city every day, but also the news of Los Angeles, of the State, the Coast, the East and the world.

The paper is served regularly by carrier, at an early hour every morning, to the residences and business places of citizens, at the same price charged in Los Angeles.

The Times.

BRANCH OFFICE, No. 26½ E. COLORADO ST.

NOTE AND COMMENT.

THAT moisture yesterday morning was very like unto rain.

THE wind comes from the right quarter, but it doesn't blow the clouds away.

SEVERAL important real-estate transfers were made yesterday. Let the good work on.

WE can better stand a poor Governor than inefficient school trustees. See to it that the best men are elected.

A GAYLY decorated beer wagon appeared on the streets yesterday. Facetious citizens referred to it as an "original package" cart.

FROSTS, terrific rainstorms and cyclones are reported in the East. We have nothing worse here than fogs and clouds, and yet there are those among us who growl at our weather.

YOU cannot longer amuse yourself by sending a letter to yourself via the earth's waistband. Orders have been issued by the Postmaster-General to return to the sender immediately any letter or postal card which is deposited in the mails for the purpose of testing the speed of an around-the-world trip.

A WANT advertisement on the Pasadena page of THE TIMES, that cost the advertiser 70 cents, got him what he wanted and saved him some twenty-five dollars in the purchase of a desired article. Pretty good investment that. It pays to advertise in a paper that is read.

AT this time, when so much money is being invested in foreign real estate, it is but proper to call attention to the fact that the best real-estate investment that a man can make is right here at home. Pasadena is growing. We have no advertised boom, but the recent and somewhat numerous real-estate purchases, some of them of considerable importance, tell their own tale of growth and prosperity. Property can be purchased now at prices as low as they will ever go. And the next decade will witness realty in this section wonderfully advanced in value. The Cross road has started things to move in the right direction. What may we not expect when the Spence road runs into the center of town, when a near-by train of cars will carry us straight to the top of Wilson's Peak, and when the Union Pacific's overlands come rumbling down the Arroyo Seco Pass and right through our midst to Los Angeles? As can be seen by glancing from day to day at the reports of transfers of real estate here, it is our shrewdest citizens, men of recognized business sagacity, who are putting their money into local investments. Doubtless there are fine opportunities elsewhere, but we question whether any place in the West has anything to offer superior to that which is at our very doors.

The Ladies' Auxiliary.

The annual meeting of the Ladies' Auxiliary of All Saints' Episcopal Church will be held this afternoon at 2:30 o'clock at the church. Reports will be read of the past year's work by the secretary and treasurer, and other business will be transacted. Miss Emery, general secretary of the Ladies' Auxiliary of the United States, will afterward speak on the character and extent of the work accomplished by the organization. At 4:30 o'clock tea will be served at St. Margaret's Institute. The services will be of an interesting nature, and a full attendance is desired.

To Widen Colorado Street.

The matter of widening Colorado street, east of Raymond avenue, has again come up for discussion. C. C. Brown says he will move his brick office back the required number of feet if Vore & Hoag will do likewise with their stable. As the latter structure is of considerable dimensions, it is not likely that the proprietors will jump at this proposition. These are the principal buildings that would have to be moved if the street was widened to its standard width east of the Santa Fé tracks.

Miss Trew Entertains.

Miss Trew entertained a small party of friends yesterday evening at the residence of her father, Dean Trew, in San Gabriel. The evening passed pleasantly, a variety of social amusements being indulged in. Among those present were Messrs. Robert and Kenneth Carter, Shoemaker, Gilmore, Chapman and the Messrs. Randolph, Misses Shoemaker, English, Carter, Chapman, Stark, Davidson and others.

Mr. Pinckney Pronounces.

PASADENA, May 26.—[To the Editor of THE TIMES.] In order that the coming school election may be decided, as it ought to be, on the sole issue of securing competent and upright men for trustees, instead of on the personal issues now being forced into the canvass, and in order that I may not be placed in the false light of willfully inciting strife to secure personal advancement, I desire to state to the public that I shall not be a candidate for superintendent, and will not accept the position if it is offered to me. Respectfully.

HERBERT PINCKNEY.

Several members of Company B indulged in rifle practice Monday evening on the range in the Arroyo Seco. The highest score was made by Sergt. Lancaster, who hit the bull's-eye 32 times out of a possible 50. The distance was 200 yards.

J. W. Eyestone yesterday purchased from Fred Whitten a lot 60x300 feet, situated on the north side of Colorado street, east of Moline avenue. The price paid was $900. The sale was effected by McDonald & Brooks.

ABOUT THE CITY.

Budget of News for a Cloudy Tuesday.

CONFLICTING WATER CLAIMS.

Memorial-day Notes—Money Sunk in a Well—Improvements on Marengo Avenue—A Batch of Briefs.

A. J. Painter told the TIMES reporter yesterday that the North Pasadena Land and Water Company has begun operations for increasing the present water supply in the Arroyo Seco and Millard's cañons. Notices have been posted claiming 10,000 inches of surplus water in these cañons, and which provide that the work of developing shall be inaugurated within sixty days after they are posted.

Some men are still in the cañons in the interest of the Shorb company, but the local company will continue its operations of tunneling and ditching just the same. The Shorb men have also commenced tunneling in the same vicinity, and the outcome promises to be very interesting if both companies continue to press their respective claims. The Shorb claims also conflict with those of the Pasadena Lake Vineyard Land and Water Company.

Memorial Day Notes.

The postoffice will remain open on Friday until 11 o'clock a.m., and in the evening the general delivery and the carriers' windows will be open. One morning delivery will be made.

The committee in charge is desirous that the people respond generously to the call for floral contributions. We have plenty of flowers here which can be donated to no better purpose than that of adorning the graves of the Nation's dead. A number of floral wreaths will be donated by the school children at the Tabernacle.

It is to be hoped that the merchants and citizens will decorate their places of business and residences, especially on Colorado street, in honor of the occasion.

The line of march will be taken up on South Fair Oaks avenue promptly at 9 o'clock. Participating organizations are expected to be on hand at that hour.

New and Handsome Thoroughfare.

The recently-graded portion of Marengo avenue, lying south of California street, will prove a pleasant surprise to those of our citizens who have not seen it since the late improvements have been made. It will well repay a visit. The grading has been well done, giving the avenue a handsome appearance. The residences that line the thoroughfare have for the most part been erected recently, and are of novel and attractive designs. The lawns are kept in neat condition, and a number of trees have been planted along the sidewalks. This part of the street will soon become a favorite location for homes, and it will not be long before it is as beautiful as the section extending north from California street.

Much Money Sunk in a Hole.

Work on the artesian well on E. F. Hurlbut's property on Orange Grove avenue has been abandoned after a fruitless search for water. Operations were begun in November, 1888, and have been carried on ever since by Mosher Bros. The hole was sunk to a great depth, but not the slightest sign of water was discovered. At one time three sets of tools lodged in the bottom of the hole. Two sets have been recovered. Mr. Hurlbut has sunk some $10,000 in the operation.

BREVITIES.

Mrs. F. F. Buell is quite ill.

A meeting of the school trustees was held yesterday evening.

Santa Fé tickets are now on sale at the Olivewood station.

H. H. Rose and Walter Wotkyns are off in the San Gabriel Cañon on a fishing expedition.

A regular monthly meeting of the Y.M.C.A. was held last night in the reading-room.

Mr. and Mrs. Day of Arizona are at the Arnold House. They expect to remain in town for some time.

A number of Pasadenians have received invitations to attend a hop at the Redondo Beach Hotel next Saturday evening.

Mining matters are looking up. Several Pasadenians recently returned from the desert speak most favorably of the outlook.

An important meeting of Pasadena Lodge, K. of P., was held yesterday evening. A number of visiting Knights were present from Alhambra.

A picnic of Los Angeles school children was held yesterday at Devil's Gate. Notwithstanding the threatening weather, everybody had a good time. There is some talk of formally opening the new library building on the Fourth of July. The building's corner-stone was laid on the same anniversary.

A meeting of the Woman's Relief Corps will be held today. It is expected that a number of new members will be received into the organization on this occasion.

A hop will be given Thursday evening in the Webster ballroom. Ten couples will be in attendance from Los Angeles, and about an equal number from Pasadena.

Rev. Dr. Crafts, secretary of the American Sabbath Union, lectured last night in the M. E. Tabernacle on "Sunday as a Legal Day of Rest." A good-sized audience was present.

Some Pasadenians took in *Paul Kauvar* last night in Los Angeles. After witnessing *Shenandoah* last week they expressed some disappointment over yesterday evening's performance.

Messrs. William R. Staats and Woodworth & Marriner have sold for J. C. Crew eighteen acres on Lake avenue, near Howard Place, to Harry C. Allen. It was a cash sale, on private terms.

Prof. S. C. Clark has purchased, through McDonald & Brooks, a lot on South Euclid avenue, near Colorado street, on which he will erect a handsome and commodious building, to be used for school purposes and as a residence. The property was bought from Maj. Skillen.

Notice of Intention to Purchase Land.

RESOLUTIONS OF THE BOARD of Supervisors adopted at a regular meeting of said Board, on the 20th day of May, 1890.

On motion of Supervisor Hubbard, the following resolutions were unanimously adopted, viz:

Resolved, that it is the intention of this board to purchase for the use of the county, all those certain lots or parcels of land situate in Garvanza, county of Los Angeles, State of California, and bounded and particularly described as follows, to-wit:

Being a tract of land thirty feet in width, on each side of and along the center line of the Los Angeles and San Gabriel Railroad, beginning at a point where said Los Angeles and San Gabriel Valley Railway Company's survey crosses the West line of Willow street, about two hundred feet northeast of the Garvanza Station building, and continuing along said survey, as above stated, across the Arroyo Seco, to a point where said Los Angeles and San Gabriel Valley Railway Company's survey intersects the right of way of the Southern California Railway Company.

This purchase is to include the old bridge, with the exception of one span heretofore sold, and except railroad iron and railroad ties, and building hereinafter excepted, and also includes block "J," lying between the right of way of the Southern California Railway Company; the right of way of the Los Angeles and San Gabriel Valley Railway Company, and Willow street, for the sum of three thousand seven hundred and fifty dollars, ($3750), gold coin of the United States.

Resolved, that notice of intention of this board to make such purchase be given by the Clerk of this board for publication for three weeks prior to July 9th, 1890, in the TIMES and Herald, newspapers of general circulation, published in the county of Los Angeles.

By order of the Board of Supervisors of Los Angeles county, Cal.

CHARLES H. DUNSMOOR, Clerk.
By C. W. BLAKE, Deputy.

Notice of Foreclosure Sale.

SHERIFF'S SALE NO. 12,346.—A. J. Copp, plaintiff, vs. Mrs. C. O. Brown, J. T. Brown, her husband, and Elijah P. Ford, defendants.—Order of sale and decree of foreclosure and sale.

Under and by virtue of an order of sale and decree of foreclosure and sale, issued out of the Superior Court of the county of Los Angeles, State of California, on the 19th day of May, A.D. 1890, in the above entitled action, wherein A. J. Copp, the above named paintiff, obtained a judgment of decree and foreclosure and sale against Mrs. C. O. Brown et al., defendants, on the 19th day of May, A.D. 1890, for the sum of $3,170.57, in lawful money of the United States, which said decree was on the 19th day of May, A.D. 1890, recorded in judgment book 20 of said court, at page 3, I am commanded to sell all that certain lot, piece or parcel of land situate, lying and being in the county of Los Angeles, State of California, and bounded and described as follows: Lot fifteen (15) in block number eight of Los Angeles Heights, as per map thereof recorded in book 7, page 38, of miscellaneous records in the office of the County Recorder of said county of Los Angeles.

Public notice is hereby given that on Wednesday, the 11th day of June, A.D. 1890, at 12 o'clock m. of that day, in front of the courthouse door of the county of Los Angeles, on Spring street, I will, in obedience to said order of sale and decree of foreclosure and sale, sell the above described property, or so much thereof as may be necessary to satisfy said judgment, with interest and costs, etc., to the highest and best bidder, for cash, lawful money of the United States.

Dated this 19th day of May, 1890.

LETTERS TO THE TIMES.

Referred to Congressman Vandever.

LOS ANGELES, May 27.—[To the Editor of THE TIMES.] It is somewhat surprising to me that the representative papers of this city, the Chamber of Commerce, the Board of Trade, etc., have not yet agitated the making of this city a port of entry. The merchants of this city who are importing goods—and there are many of them—would greet such a step with the utmost favor, for it would save them many days of delay and many dollars of expenses. As it is at present, imported goods must come either via New Orleans or San Francisco, and it happens *very often* that they are delayed, not alone for days, *but for weeks and months*. This city, as the commercial center of this part of the country, is certainly large enough already to deserve the attention of the Government in that direction, and it would only be another important step forward if we would succeed in making Los Angeles a port of entry. Other inland cities not more important than Los Angeles — for instance, Omaha and Denver—are ports of entry. Let us have the same commercial privileges for Los Angeles.

I am one of the sufferers under the present system. S. G. M.

MORE PISTOL PRACTICE.

Another Ruse of the Rival Chinese Company to Raise a Riot.

There was another fusilade of firearms in the Chinese quarter last evening. About 10:30 o'clock a rapid discharge of pistol shots was heard in an alley in the rear of Marchessault street. The firing was very rapid and the shots seemed to all come from one direction. As near as the officers could estimate there were about twelve shots. On reaching the alley the officers found no one — the cannonading skirmishers had disappeared. It is surmised by those who understand the cause of the quarrel between the two Chinese companies that this was a feint, to use a military term, on the part of the Bing Quong Tong Company's highbinders to attract the Ah Mow people into the streets and then attack them. But the Ah Mow people were too cautious to be entrapped, and remained within doors. The same ruse was attempted last Sunday night, as stated by THE TIMES. The shots last evening were heard by Officers Stevenson, Roberts, Lynch and Hugh. No one was hurt, so far as can be learned. The patrol wagon was telephoned for, and several officers came from the station, but nothing could be learned other than that the shots had been fired.

A 1 o'clock this morning a TIMES reporter took a tour through the Chinese battle ground, and found matters very quiet and the streets practically deserted, excepting by the sugar-cane peddlers. The theater was running at full blast, and all of Ah Mow's adherents were peaceably viewing mimic war scenes on the stage.

A Machine that Wraps Oranges.

[New Orleans Picayune.]

An ingenious machine for wrapping oranges hails from Oneida county. It will wrap in paper 2500 oranges an hour. It is compact and handy, 3 feet long by 3 feet high and 18 inches wide. The fruit passes from a cylinder down a slide, one orange at a time, into a wire cup, which opens and drops the orange on a square piece of paper cut by the machine from a roller, then passes through an aperture which wraps the paper and trims it, and then it passes on to the carrier.

THE PEOPLE'S STORE.

OUR SECOND GREAT DRUG SALE OCCURS TODAY.

It Is Worth Your While to Inspect Our Windows—It Will Give You an Idea of Our Assortment.

PEOPLE'S STORE,
WEDNESDAY, May 28, 1890.

When are you going to have another Drug sale? Why don't you have another sale on Drugs? When are you going to give us a chance to lay in a supply of Drugs and Patent Medicines at cut prices? Such is the gist of a thousand and one questions asked us since our last cut-price sale of these goods.

Those who have seen our window during the last couple of days are posted. To those living out of the city, we say "Today!" Our second grand special cut-price sale of Drugs, Patent Medicines, Soap and every kind of toilet article begins today.

Everything on sale, in many instances less than half the regular price, is named. Profiting by our experience during the last sale of these goods, when the rush and crush could hardly be handled, we have arranged to have two separate and distinct departments, extra salespeople and a special cashier and wrapper for them. Everybody will be served promptly.

Come early, have your lists ready, walk up to the counters, read them off and get your goods—all you want of them, too, and there will be no delay whatever.

Drugs and patent medicines cheaper than ever today.

MEDICAL.

CATARRH,

Throat Diseases, Asthma, Bronchitis and Consumption, together with Diseases of the Eye, Ear and Heart, successfully treated by M. HILTON WILLIAMS, M.D., M.C.P.S.O., By his Hot Air Medicated Inhalations and his Compound Oxygen Treatment.

Probably no system of practice ever employed has been so universally successful as that introduced by Dr Williams for the cure of Catarrh, Throat Diseases, Bronchitis, Asthma and Consumption.

CATARRH

Catarrh is often regarded by the patient as a cold in the head, and he often expresses his astonishment at his remarkable tendency to contract fresh cold. Indeed, he declares that he is scarcely free from one cold before he takes another, and he is always exceedingly careful; it is also a matter of surprise to him that the cold always seems to settle in the head and throat.

At times many of the symptoms of catarrh seem to abate, and the patient is led to hope that the disease is about to wear off; but another class of symptoms soon appear and he learns to his horror that, instead of recovery from the disease, it is somewhat changed in its character and has extended to the throat. A sense of weariness is sometimes felt in reading, speaking or singing; hoarseness at times occurs, a sensation of dryness is felt in the throat, or it appears that some foreign substance, as, for instance, a hair, obstructed the throat; there becomes a sense of languor and fatigue; the breath lessens on a little exertion, a short, hacking cough, a peculiar sound in clearing the throat, a feeling as though there was not room enough in the chest to breathe; these and other symptoms occur after the disease has made considerable progress. Then it is a time when consumption is about to begin its dreadful work. Up to this time the press of the disease may have been slow and the patient may, in expressing his confident hope that it will "wear off," declare that he has had the catarrh for years and has not seemed to become much worse, and trusts that he will "by and by" recover. But this delusion is the grand error which has peopled our cemeteries with consumptive forms, as all forms of catarrh end finally in consumption.

Every case of catarrh is curable when properly treated. Eastern visitors and invalids should avail themselves of the opportunity of being cured before they return home.

Those who desire to consult me in regard to their cases had better call at the office for an examination, but if impossible to visit the office personally can write for list of questions and circular, both of which will be sent free of charge. Address
